**New at our clinic: Revision Skincare**

We're excited to offer products from **Revision Skincare** – a new name in the Nordics, but a longtime favorite among skincare professionals and dermatologists around the world.

Revision Skincare is all about science-backed skincare with a focus on real results, skin health and long-term benefits. The products are designed to give your skin what it truly needs – without unnecessary complexity or exaggerated promises.

You'll find a carefully selected range that's perfect whether you're just starting to explore skincare or looking to take your routine to the next level.

Visit us to learn more – we're happy to help!

**Revision Skincare – Advanced Skincare with Visible Results**

We're proud to offer products from **Revision Skincare** – a professional skincare brand built on science, skin health, and long-term results. Now available in the Nordics, Revision Skincare is quickly becoming a go-to for skincare professionals and clinics looking for trusted, high-performance solutions.

Each product is developed with advanced technologies and premium ingredients to work in harmony with the skin's natural processes. No inflated claims – just intelligent skincare that delivers **True Visible Results™**.

One of the brand's signature technologies is its scientific focus on the **D•E•J®** – the Dermal-Epidermal Junction – where many signs of skin aging begin. By supporting this critical structure and enhancing the skin's natural collagen and moisture balance, both the look and feel of the skin are improved.

Revision Skincare is ideal for those looking to prevent early signs of aging as well as those seeking results-driven care post-aesthetic treatment.

We've handpicked a range of products that allow us to tailor routines to your skin's specific needs.

Visit us to learn more about how **Revision Skincare** can help you achieve stronger, healthier, and more balanced skin.

**Subject line: Something new and truly great at our clinic**

Hi,

At XXX Clinic, we're always searching for the very best for our clients – both in terms of results and overall experience. That's why we're thrilled to now offer products from **Revision Skincare**, a professional skincare brand that's made a powerful impact on

both experts and users around the world. And on us, of course!

Revision Skincare combines science-backed ingredients with proven efficacy – without compromising on feel or skin health. These products are great whether you're aiming to prevent early signs of aging or have specific concerns like pigmentation, sensitivity or uneven texture.

We've hand-selected a range we truly believe in – and we'd love to tell you more at your next visit.

You're always welcome to stop by, or get in touch if you're curious!

Warm regards,

Anna and Anna at XXX Clinic
